Detail-oriented cloud computing architect possessing skills in developing automated scripts for cloud platforms to ensure effective deployment and integration of web applications. Possessing skills in designing and implementing various cloud frameworks for ensuring compliance with clients' requirements. Adept at coordinating with cross-functional teams to understand customer requirements and providing customized solutions for improving business operations.

Key Skills

• Cloud Computing • Data Analysis • Project Management • Customer Service •Automation • Troubleshooting • Liaison & Coordination • Account Management • Stakeholder Management

Technical Skills

- Cloud Systems: EC2, RDS, DynamoDB, VPC, Cloud Formation, Amazon Web Services
- Database: SQL,
- Languages: Python
- DevOps Tools: Docker, Kubernetes, Terraform
- Operation Systems: Mac, Linux
- Git, GitHub
- Security: IAM Management

Professional Experience

AWS Cloud Architect Student, **Per Scholas**   Oct 2022 – Feb 2023

Environment: AWS Cloud
Technology: IAM Management, VPC, EC2, Auto scaling, ELB, SNS, Security, RDS, EBS, S3, Route53, ELB, CloudWatch, Cloud Formation, SNS,

System Designing & Application Deployment
- Applying core AWS services, data storage with S3 buckets computing with EC2, and configuring networks with Amazon VPC.
- Building IT fundamental skills, including working knowledge of programming with Python and creating scripts to run on Linux
- Network Configuration & Script Development
- Gained in-depth knowledge in architecting Networks ACLS, Security groups, and private networks configurations.
- Created 10+ automated scripts in Linux to control instance operations in Amazon API under the guidance of the Team Lead
- Worked in a team of 6 cloud practitioner remotely, as well as individually to problem solve and complete difficult hands-on labs through strong demonstrations of persistence

Real Estate Agent, **Century 21** (Cornerstone Realty Team)   Nov 2021 - Present

- Helped my clients buy over $2 million dollars' worth of real estate.
- Developed and maintained strong relationships with clients to understand their unique needs and preferences

- Negotiate contracts and closing deals to ensure clients receive the best terms and conditions
- Conducted property showings and open houses to showcase properties and attract potential buyers
- Utilized technology and marketing strategies to effectively promote properties and attract potential buyers
- Built strong relationships with clients to provide exceptional customer service and build a loyal customer base

Operations Sales Leader, **Bimbo Bakeries**   Feb 2006 - Nov 2021

- Analyzed market trends and sales history to forecast future business using Margin Minder Metadata and discover new market areas to explore. Pushed for expansion into new markets and resulted in $24 million in new sales
- Developed and implemented performance standards and procedural changes to drive productivity and quality through weekly meetings
- Oversaw and directed staff, designing schedules to meet employee and business needs, resulting in 10% greater efficiency
- Built business models to predict market size and competitive landscape for new product line; presented product analysis and asset management plan to devise product delivery strategy through 10 key distributors
- Created a 5% cost efficiency in business by keeping track of damaged goods and working towards creating less waste
- Led restructuring regionally by creating new operational processes and functional frameworks to ensure accountability and clarity of outcomes throughout organization; reduced operating costs by $2MM annually

Education

Per SCHOLAS   Sep 2022-Feb 2023
AWS Certified Cloud Architect

Bachelor of Science- Purdue Global University   Feb 2020-May 2023
Business Administration

Certifications

- Security +
- Amazon AWS CCP
- Amazon AWS Solutions Architect in Progress
